Long-Term Capital Gains & Qualified Dividends - Tax Rates/Brackets

Long-term capital gains tax rates/brackets generally apply to investment assets held for over a year and to qualified dividends. Short-term capital gains (assets held for a year or less) are taxed at ordinary income tax rates. Unrecaptured section 1250 gains (such as from depreciated real estate) are taxed up to a maximum rate of 25%. Collectibles (such as coins or art) are taxed up to a maximum rate of 28%. See [IRS Publication 550](#).

Kiddie Tax

This rule applies to unearned income (such as dividends, interest income, and capital gains) of dependent children under the age of 18 or to full-time students younger than 24 at the end of the tax year. Under this rule:

- The first \$1,350 of unearned income is not taxed because it's covered by the kiddie tax standard deduction.
- The next \$1,350 of unearned income is taxed at the child's marginal tax rate.
- Anything above \$2,700 is taxed at the parents' marginal tax rate.

Tax Deductions & Credits (that do not require you to itemize)

Tax deductions reduce your taxable income dollar for dollar, whereas tax credits reduce your tax liability dollar for dollar. Generally, tax credits offer larger tax benefits for those in the lower tax brackets, and tax deductions provide larger tax benefits for those in the higher tax brackets.
